

*Thinking about doing something challenging next year?*

# How about Tibet?

**Put yourself in this picture**

**Surmang Foundation's** (& Surmang Foundation Canada's) clinic is celebrating its 21<sup>st</sup> Anniversary next year in the brief, glorious East Tibetan summer.

We're looking for a few good docs to join over 150 volunteers who have provided free medical services in this remote, traditional region since 1992. We have a clinic and two doctors whom you would train. We've brought maternal and infant mortality to near zero and we intend to keep it there.

The skills we are looking for include  
obstetrics and gynecology  
pediatrics  
emergency medicine

- Trauma
- Radiology
- Family medicine

If this sounds interesting take a look at our website [www.surmang.org](http://www.surmang.org) or write [leeweingrad@surmang.org](mailto:leeweingrad@surmang.org) or Dr. Keerit Tauh [ktauh99@gmail.com](mailto:ktauh99@gmail.com) and we'll send you the particulars.
